

Isolation amplifier TV 22 GL

Application

The TV 22 GL isolation amplifier is used for galvanic isolation and amplification of DC signals (mA).

Versions

	Part no.
Isolation amplifier TV 22 GL	53701

Blue part no. = in-stock items

Description

Input and output are galvanically isolated with a high degree of isolation. The integrated high-efficiency electronic power supply unit helps to avoid overheating and allows for high output loads. The extremely narrow design results in a high packing factor.

Technical specifications

Housing

DIN rail housing

W x H x D: 18 x 78 x 103 mm

Supply voltage

AC/DC 20 – 253 V

Input

0–20 mA oder 4–20 mA

Output

0–20 mA oder 4–20 mA

1:1 to input signal

Output load

Max. 400 Ohm
