Spring contact block 8-poles, reflow solderable for horizontal pcb

Approvals and Markings

Your Advantages

- Modular, flexible for horizontal pcbs
- Reliable and consistent supply, connection and distribution of energy, signals and data

Features

- Universal use with various enclosure types
- High current (5 A per power cable)
- Quick and easy mounting in the DIN-rail
- Contour and layout of the bus pcb can be according to customers' requirements e.g. defined by the customer
- Designed for standard DIN-rail dimensions
- Large stand-off to DIN-rail floor allows the mounting of SMD components on the bus pcb underside
- The carrier profile is securely fixed by safety caps (left and right) on the DIN-rail

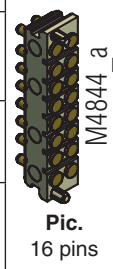

Carrier profile 15 Carrier profile 7.5

- Pcb rail "breaks" are possible, e.g. for operation of bus signals inside instruments
